Edison International Reports Fourth Quarter and Full-Year 2021 Results

- Fourth Quarter 2021 GAAP earnings per share of \$1.38; Core EPS of \$1.16
- Full-Year 2021 GAAP EPS of \$2.00; Core EPS of \$4.59 exceeds guidance
- Edison International declares quarterly dividend of \$0.70 per share; annualized rate of \$2.80 per share
- EIX announces 2022 EPS guidance of \$4.40–4.70 and reiterates long-term EPS growth rate target of 5–7%

ROSEMEAD, Calif., February 24, 2022 — Edison International (NYSE: EIX) today reported fourth quarter 2021 net income of \$523 million, or \$1.38 per share, compared to net income of \$526 million, or \$1.39 per share, in the fourth quarter of 2020. As adjusted, fourth quarter 2021 core earnings were \$440 million, or \$1.16 per share, compared to core earnings of \$451 million, or \$1.19 per share, in the fourth quarter of 2020.

Southern California Edison's (SCE) fourth quarter 2021 core earnings per share (EPS) increased year-over-year primarily due to higher revenue from the 2021 General Rate Case (GRC) final decision and income tax benefits from the settlement of 2007 – 2012 California tax audits, partially offset by higher operation and maintenance expenses and higher net financing costs.

Edison International Parent and Other's fourth quarter 2021 loss per share increased year-over-year primarily due to higher preferred dividends as a result of preferred equity issuances in 2021.

"We delivered solid 2021 results with EPS exceeding the guidance range. Additionally, SCE continues to significantly reduce wildfire risk and the utility's ongoing and planned mitigation actions give us increased confidence of further risk reduction," said Pedro J. Pizarro, president and CEO of Edison International.

Pizarro added, "SCE sees substantial investment opportunities over the next several years to bolster grid safety and resiliency. Furthermore, with one of the strongest electrification profiles in the industry, SCE is accelerating economywide electrification with investments in transportation and building electrification to help meet California's climate goals. All these initiatives give us high confidence in achieving EPS growth of 5 to 7% from 2021 to 2025. Combined with the 4%+ current dividend yield, we see strong potential for double-digit total return for EIX shares — before potential P/E multiple expansion to recognize significant utility and government risk reduction progress to-date and yet ahead."

Full-Year Earnings

For 2021, Edison International reported net income of \$759 million, or \$2.00 per share, compared to \$739 million, or \$1.98 per share, for 2020. As adjusted, Edison International's core earnings were \$1,741 million, or \$4.59 per share, compared to \$1,686 million, or \$4.52 per share, in 2020.

SCE's full-year core EPS was higher due to higher revenue from the 2021 GRC final decision, higher FERC revenue and income tax benefits from the settlement of 2007 – 2012 California tax audits, partially offset by lower insurance benefits and higher property taxes.

Edison International Parent and Other's full-year loss per share increased primarily due to higher preferred dividends as a result of preferred equity issuances in 2021.

Edison International uses core earnings, which is a non-GAAP financial measure that adjusts for significant discrete items that management does not consider representative of ongoing earnings. Edison International management believes that core earnings provide more meaningful comparisons of performance from period to period. Please see the attached tables for a reconciliation of core earnings to basic GAAP earnings.

2022 Earnings Guidance

The company announced its earnings guidance range for 2022 as summarized in the following chart. See pages 12 and 13 of the presentation accompanying the company's conference call for further information and assumptions.

	2022 Earnings Guidance as of February 24, 2022	
	Low	High
EIX Basic EPS	\$ 4.40	\$ 4.70
Less: Non-core Items	—	—
EIX Core EPS	\$ 4.40	\$ 4.70

Edison International and Southern California Edison Declare Dividends

Today, the Board of Directors of Edison International declared a quarterly common stock dividend of \$0.70 per share, payable on April 30, 2022, to shareholders of record on March 31, 2022. They also declared dividends on preferred stock. Additionally, the Board of Directors of Southern California Edison Company today declared dividends on preference stock. For more information, please see the related news release at www.edisoninvestor.com.

When: Thursday, February 24, 2022, 1:30 p.m. (Pacific Time)
Telephone Numbers: 1-888-673-9780 (US) and 1-312-470-0178 (Int'l) - Passcode: Edison
Telephone Replay: 1-800-835-8067 (US) and 1-203-369-3354 (Int'l) - Passcode: 3482
Telephone replay available through March 10, 2022
Webcast: www.edisoninvestor.com

Edison International has posted its earnings conference call prepared remarks by the CEO and CFO, the teleconference presentation, and Form 10-K to the company's investor relations website. These materials are available at www.edisoninvestor.com.

About Edison International

Edison International (NYSE: EIX) is one of the nation's largest electric utility holding companies, providing clean and reliable energy and energy services through its independent companies. Headquartered in Rosemead, California, Edison International is the parent company of Southern California Edison Company, a utility that delivers electricity to 15 million people across Southern, Central and Coastal California. Edison International is also the parent company of Edison Energy, a global energy advisory company delivering comprehensive, data-driven energy solutions to commercial and industrial users to meet their cost, sustainability and risk goals.

Appendix

Use of Non-GAAP Financial Measures

Edison International's earnings are prepared in accordance with generally accepted accounting principles used in the United States and represent the company's earnings as reported to the Securities and Exchange Commission. Our management uses core earnings and core earnings per share (EPS) internally for financial planning and for analysis of performance of Edison International and Southern California Edison. We also use core earnings and core EPS when communicating with analysts and investors regarding our earnings results to facilitate comparisons of the Company's performance from period to period. Financial measures referred to as net income, basic EPS, core earnings, or core EPS also apply to the description of earnings or earnings per share.

Core earnings and core EPS are non-GAAP financial measures and may not be comparable to those of other companies. Core earnings and core EPS are defined as basic earnings and basic EPS excluding income or loss from discontinued operations and income or loss from significant discrete items that management does not consider representative of ongoing earnings. Basic earnings and losses refer to net income or losses attributable to Edison International shareholders. Core earnings are reconciled to basic earnings in the attached tables. The impact of participating securities (vested awards that earn dividend equivalents that may participate in undistributed earnings with common stock) for the principal operating subsidiary is not material to the principal operating subsidiary's EPS and is therefore reflected in the results of the Edison International holding company, which is included in Edison International Parent and Other.

Safe Harbor Statement

Statements contained in this presentation about future performance, including, without limitation, operating results, capital expenditures, rate base growth, dividend policy, financial outlook, and other statements that are not purely historical, are forward-looking statements. These forward-looking statements reflect our current expectations; however, such statements involve risks and uncertainties. Actual results could differ materially from current expectations. These forward-looking statements represent our expectations only as of the date of this presentation, and Edison International assumes no duty to update them to reflect new information, events or circumstances. Important factors that could cause different results include, but are not limited to the:

- ability of SCE to recover its costs through regulated rates, including uninsured wildfire-related and debris flow-related costs, costs incurred to mitigate the risk of utility equipment causing future wildfires, costs incurred to implement SCE's new customer service system, costs incurred as a result of the COVID-19 pandemic, and increased labor and materials costs due to supply chain constraints and inflation;
- ability of SCE to implement its Wildfire Mitigation Plan and capital program;
- risks of regulatory or legislative restrictions that would limit SCE's ability to implement Public Safety Power Shutoff ("PSPS") when conditions warrant or would otherwise limit SCE's operational PSPS practices;
- risks associated with implementing PSPS, including regulatory fines and penalties, claims for damages and reputational harm;
- ability of SCE to maintain a valid safety certification;
- ability to obtain sufficient insurance at a reasonable cost, including insurance relating to SCE's nuclear facilities and wildfire-related claims, and to recover the costs of such insurance or, in the event liabilities exceed insured amounts, the ability to recover uninsured losses from customers or other parties;
- extreme weather-related incidents (including events caused, or exacerbated, by climate change, such as wildfires, debris flows, droughts, high wind events and extreme heat events) and other natural disasters (such as earthquakes), which could cause, among other things, public safety issues, property damage, operational issues (such as rotating outages and issues due to damaged infrastructure), PSPS activations and unanticipated costs;
- risks that California Assembly Bill 1054 ("AB 1054") does not effectively mitigate the significant exposure faced by California investor-owned utilities related to liability for damages arising from catastrophic wildfires where utility facilities are alleged to be a substantial cause, including the longevity of the Wildfire Insurance Fund and

the CPUC's interpretation of and actions under AB 1054, including its interpretation of the prudence standard established under AB 1054;

- ability of Edison International and SCE to effectively attract, manage, develop and retain a skilled workforce, including its contract workers;
- decisions and other actions by the California Public Utilities Commission, the Federal Energy Regulatory Commission, the Nuclear Regulatory Commission and other governmental authorities, including decisions and actions related to nationwide or statewide crisis, determinations of authorized rates of return or return on equity, the recoverability of wildfire-related and debris flow-related costs, issuance of SCE's wildfire safety certification, wildfire mitigation efforts, approval and implementation of electrification programs, and delays in executive, regulatory and legislative actions;
- ability of Edison International or SCE to borrow funds and access bank and capital markets on reasonable terms;
- risks associated with the decommissioning of San Onofre, including those related to worker and public safety, public opposition, permitting, governmental approvals, on-site storage of spent nuclear fuel, delays, contractual disputes, and cost overruns;
- pandemics, such as COVID-19, and other events that cause regional, statewide, national or global disruption, which could impact, among other things, Edison International's and SCE's business, operations, cash flows, liquidity and/or financial results and cause Edison International and SCE to incur unanticipated costs;
- physical security of Edison International's and SCE's critical assets and personnel and the cybersecurity of Edison International's and SCE's critical information technology systems for grid control, and business, employee and customer data;
- risks associated with cost allocation resulting in higher rates for utility bundled service customers because of possible customer bypass or departure for other electricity providers such as Community Choice Aggregators ("CCA," which are cities, counties, and certain other public agencies with the authority to generate and/or purchase electricity for their local residents and businesses) and Electric Service Providers (entities that offer electric power and ancillary services to retail customers, other than electrical corporations (like SCE) and CCAs);
- risks inherent in SCE's capital investment program, including those related to project site identification, public opposition, environmental mitigation, construction, permitting, changes in the California Independent System Operator's transmission plans, and governmental approvals; and
- risks associated with the operation of electrical facilities, including worker and public safety issues, the risk of utility assets causing or contributing to wildfires, failure, availability, efficiency, and output of equipment and facilities, and availability and cost of spare parts.

Additional information about risks and uncertainties, including more detail about the factors described in this report, is contained throughout this report and in the 2021 Form 10-K, including the "Risk Factors" section. Readers are urged to read this entire report, including information incorporated by reference, as well as the 2021 Form 10-K, and carefully consider the risks, uncertainties, and other factors that affect Edison International's and SCE's businesses. Edison International and SCE post or provide direct links (i) to certain SCE and other parties' regulatory filings and documents with the CPUC and the FERC and certain agency rulings and notices in open proceedings in a section titled "SCE Regulatory Highlights," (ii) to certain documents and information related to Southern California wildfires which may be of interest to investors in a section titled "Southern California Wildfires," and (iii) to presentations, documents and other information that may be of interest to investors in a section titled "Presentations" at www.edisoninvestor.com in order to publicly disseminate such information.

These forward-looking statements represent our expectations only as of the date of this news release, and Edison International assumes no duty to update them to reflect new information, events or circumstances. Readers should review future reports filed by Edison International and SCE with the SEC.
